

esop companies

HLB Tautges Redpath is 100-percent employee-owned. Our ownership structure is an advantage for our ESOP clients as we understand the challenges and opportunities of employee ownership and apply our understanding to our service delivery.

As a 100-percent employee-owned company, our ESOP industry team is able to apply our first-hand knowledge and expertise when addressing questions, concerns, compliance needs, and offering support and guidance to our ESOP clients.

We believe in ESOPs and therefore continually look for ways to help ESOP companies thrive financially and culturally. Members of our team also work to protect S Corp ESOPs and stay up-to-date and knowledgeable on issues, changes and legislation through involvement and committee leadership roles in the Employee-owned S Corporations of America (ESCA) and the Minnesota/Dakotas ESOP Association Chapter.

We also help companies considering an ESOP structure to determine if their business is a good candidate. Before recommending an ESOP, our team helps clients understand the ESOP concept, benefits and risks, and evaluate how an ESOP may affect company goals.
